Ken, For the last three years I have enjoyed rapping with you. I have no way of telling you that you have affected me as you have entered my mind such that all I have to do is see you in my mind's eye or out of the corner of my eye, & its psychological sense of you generates fresh in my mind. And I like that sense. Thanks for the hours you shared with me. Thanks you for your ideas, your feelings, your honesty in your life & There will be many pressures to pull you off center & their cumulative effect will be to hold on to your & away from your essence. At some point you find central essence that drop in what you that you have lost it; at some essence. Thanks you. must & re-find your self.

Bill [illegible]

Dear Ken,
Thank you for being the only one to recommend "the Meaning of Life" because I loved it. Just remember how insignificant we are in the galaxy so I think we should donate our livers while we are alive. I expect to see you hosting "Sneak Previews" someday. Trust your judgement. Stay loose.
